An exhibition of films, sculpture and performance.

Connecting culture and regeneration in the world's first City of Film.

The Arts of Place is a creative programme of temporary artworks, events and learning, designed to involve everyone and to raise the cultural profile of Bradford's landmark regeneration project, City Park.

As part of the programme six artists have developed a series of temporary multi-disciplinary artworks for City Park during its construction period. The artworks explore the unique identity of Bradford, revealing stories and histories of people and place; demonstrating the value of involving artists in the ongoing process of regeneration.

City Park will be a vibrant public space in the heart of Bradford city centre. It will be a flexible space for people of all ages to enjoy, with areas for rest, play and relaxation.
